Graph Theory, Math Analysis, Linear Algebra, Physics, C/C++

INSEEC London – *Engineering School*　　　　Sept 2019 – Dec 2019

Computer Vision, Java, Operational Mathematical Research

EXPERIENCE

Front-End developer — *JEECE*　　　　Paris, France

JEECE is one of the top 30 french junior enterprises. I have worked on two missions:

- I developed the front-end for a chat and sign up application using VueJS.　　Sept 2018 – Present
- I added functionalities to an admin panel. The existing code base was built on the LAMP Stack.

Full-Stack developer — *Freelance*　　　　Paris, France

I developed a website that allowed my client to sell betting prognostics as a subscription. I used VueJS for the front-end, Firebase for the back-end and Stripe to process payments.　　Dec 2018 – Jan 2019
